April 2, 2026

Dear Minister Jamdamba,

On behalf of the Zoo sauvage de Saint-Félicien, we are pleased to express our support for the International Year of Rangelands and Pastoralists (IYRP 2026).

We recognize the essential role that rangelands play in sustaining biodiversity, supporting wildlife populations, and maintaining ecological balance across many regions of the world. Initiatives such as IYRP provide valuable opportunities to raise awareness and strengthen conservation efforts related to these ecosystems.

As an institution dedicated to conservation and education, we are committed to supporting initiatives that highlight the importance of sustainable ecosystems and human-wildlife coexistence. Throughout 2026, we intend to contribute through educational programming, public engagement, and awareness activities aligned with the objectives of the IYRP.

We look forward to supporting this global initiative.

Sincerely,

David Pagé
Director of Conservation and Education
Zoo sauvage de Saint-Félicien
Québec, Canada
