Re: The International Year of Rangelands and Pastoralists (IYRP 2026)

Dear Minister Jamdamba,

We are writing on behalf of the Climate Smart Agriculture Youth Network Global, wishing to join the International Support Group (ISG) of the International Year of Rangelands and Pastoralists (IYRP 2026). It is important for the Climate Smart Agriculture Youth Network Global (GCSAYN) because it shall enable us to leverage our various flagship programs below:

- <https://csaynglobal.org/african-youth-pastoral-initiative/>
- <https://csaynglobal.org/research-and-scientific-committee/>
- <https://csaynglobal.org/environmental-education/>
- <https://csaynglobal.org/sdg-pavilion/>
- <https://csaynglobal.org/fns-flagship/>
- <https://csaynglobal.org/cya-program/>
- <https://csaynglobal.org/wasa-program/>

We shall be able to rollout the IYRP and GCSAYN Collaboration through an online discussion/in-person consultations to hear the voices of the voiceless from November 1st 2025 - December 15th 2025 (depending on the academic calendar of all our Centres of Excellence) with main objective to spread the word across our Network. A consolidated report of the outcome shall be submitted to the IYRP Secretariat no later than December 20th, 2025.

As a youth volunteer Youth Network, we do not have financial support available for supporting the initiative, but we shall make use of our 88 GCSAYN Centers of Excellence (Primary and Secondary/High Schools, Universities and TVETs) across the 178 countries. In addition, we shall make good use of our GCSAYN Research and Scientific Committee (<https://csaynglobal.org/research-and-scientific-committee/>) to fast-track meaningful implementation of the IYRP. In addition, we shall include IYRP as one of our main activities for the year 2026-2030 by appointing Leads across all our approved Centers of Excellence globally. We shall include the IYRP logo to our partners' page once the high-resolution logo is shared with us.

Sincerely,

A handwritten signature in black ink, appearing to read 'Ntiokam Divine'.

Ntiokam Divine
Executive Director

Climate Smart Agriculture Youth Network Global (GCSAYN)
