Bayanzurkh District, Ulaanbaatar, Mongolia

**RE: LETTER OF COMMITMENT AND SUPPORT FOR THE INTERNATIONAL  
YEAR OF RANGELANDS AND PASTORALISTS (IYRP) 2026**

Dear H.E. Mr. Enkhbayar Jambamba,

On behalf of Osagam Community Based Organisation (OCBO), we are pleased to express our commitment and support towards the International Year of Rangelands and Pastoralists (IYRP) 2026.

OCBO is a community-based organisation working in Magadi Ward, Kajiado County, Kenya, focusing on strengthening community development through education, climate change advocacy, and supporting pastoralist communities. As an organisation operating within a pastoralist context, we recognise the critical importance of rangelands in supporting livelihoods, cultural identity, food security, and environmental sustainability.

We believe that IYRP 2026 provides an important opportunity to highlight the contribution of pastoralists, promote sustainable rangeland management, and address challenges affecting pastoral communities, including climate change, land degradation, and changing grazing patterns.

In support of IYRP 2026, OCBO commits to participate in and support activities including:

1. Community awareness and advocacy on the importance of rangelands, pastoralism, and sustainable natural resource management.

2. Promoting climate change resilience initiatives among pastoralist communities through conservation practices, environmental protection, and community engagement.
3. Supporting sustainable livestock practices, including initiatives that improve pastoral livelihoods and strengthen household resilience.
4. Engaging youth and community members through capacity-building activities that promote the preservation of pastoral knowledge and culture.
5. Collaborating with partners and stakeholders working towards the protection of rangelands and the empowerment of pastoral communities.

Regarding financial support, OCBO is a community-based organisation with limited resources. We commit to contributing through community mobilisation, volunteer participation, awareness creation, and available organisational resources. We will also explore partnerships and resource mobilisation opportunities to support IYRP-related activities. We appreciate the global efforts towards recognising the value of rangelands and pastoralists and look forward to being part of the IYRP 2026 movement.

Yours faithfully,  
Jackson Mugesu Sararah  
Director  
Osagam Community Based Organisation (OCBO)
