

# Vence HerdManager Starting Out

## Why we organize?

- Depending on costs, return on investment is contingent on how quickly VF can be implemented in an operation
- Desire to see the benefits of VF on grazing management

1. Focus on animals we can actively manage
2. Immediately identify and locate missing collars
3. Remove obstacles limiting VF use in a ranching operation

## Obstacles to organization

### Collars

#### Unavoidable circumstances

- Batteries on collars will run out
- Collars will fall off animals
- Collars can malfunction

<input type="checkbox"/>	MIA Collars	
<input type="checkbox"/>	175 LH Dead Batteries	<input type="checkbox"/>
<input type="checkbox"/>	104 LH No Movements	<input type="checkbox"/>
<input type="checkbox"/>	26 SH Dead Batteries	<input type="checkbox"/>
<input type="checkbox"/>	70 SH No Movements	<input type="checkbox"/>
<input type="checkbox"/>	Misc	
<input type="checkbox"/>	8 z. GPS Test Herd	<input type="checkbox"/>
<input type="checkbox"/>	317 z. Removed Collars	<input type="checkbox"/>
<input type="checkbox"/>	140 Large Herd Control Training 12/18/2022	<input type="checkbox"/>
<input type="checkbox"/>	60 Small Herd 2023-01-07	<input type="checkbox"/>

### Virtual Fences

#### All changes to a herd programming take time

- Removing a programmed VF fence and reuploading take double the upload time
- Leaving uploaded fences and saving adjustments shortens this upload time
